

## "Blessings from the Salvation Army"

A couple weeks before Thanksgiving my disabled daughter and I were evicted from our apartment in Richland, WA. We contacted the Salvation Army and they assisted us with a safe place to live temporarily. We moved in with family for the Holidays.

In March my daughter had some serious medical issues so I took her to Sacred Heart Medical Center, here in Spokane. With a suitcase of clothing for each of us, we decided to stay here in Spokane where her medical needs would be met.

We were accepted into the Salvation Army shelter on April 29, 2007. It has been a very accommodating and safe place for us to live and try to get stability back into our lives. The facility has a staff member on duty 24 hours a day and the shelter is clean and the spirit is positive.

We are truly Blessed to have found the Salvation Army and its resources.

Sincerely,  
Rhonda Huber
